

NC THINNER

Product No. **TN200**

[Economy]

Economical grade NC THINNER is a mixture of esters, glycol, alcohol, aromatic solvents and ketones suitable diluents to all nitro products. It is manufactured for reducing NC product before being applied in different methods (preferable NC sealer only).

SPECIFICATIONS

Properties

Color	: Clear
Specific gravity	: 0.85 Kg/lit [± 0.025]
Initial Boiling Point	: 56°C
Non Aromatics	: 40-50%
Flash point	: 21°C

APPLICATION METHODS

All RITVER thinners listed are to be used in conjunction with the corresponding products and systems intended for, or any Technical guidance required may be obtained by the end user.

Caution: While excess usage / over thinning is not advisable in any system, one can add 200% Of the concerned Thinner for NC Basecoat ease of application (clear and pigmented).

Advantage: Quickly reduces the consistency of the lacquer to the required degree. Improves film smoothness of lacquers when applied either by spray or dipping thus extending excellent finish. Lacquer driers without blushing, resin blush, pin holing and other surface defects. No orange peel developed after the evaporation of NC Thinner, and therefore increase the tensile strength of the film along with its gloss. NC Thinner has a certain action preventing milky effect of the surface.

PACKING & STORAGE

Available in 1Ltr, 5Ltr, 5USG, 10x5USG. Store in a cool and well ventilated place. Keep away from direct sunlight. 18 months in unopened container, stored in a cool and dry condition at 25°C.
